

# COUNTY OF SAN DIEGO NEWS RELEASE

FOR IMMEDIATE RELEASE

April 12, 2007

## **COUNTY OFFERS VARIETY OF SERVICES AT RABIES VACCINATION, MICROCHIPPING CLINIC**

The County Department of Animal Services will offer a low-cost rabies vaccination, licensing and microchipping clinic from noon to 2 p.m. on Sunday, April 15, 2007. The clinic will be held at Carlsbad City Hall, 1200 Carlsbad Village Drive in Carlsbad.

"Get the shot, the license and the microchip, and pick up a coupon to spay or neuter your pet" said Dawn Danielson, director of County Animal Services.

There will be \$25 coupons available to neuter male dogs, cats and rabbits, and \$50 coupons to spay female dogs, cats and rabbits. The coupons are only available for residents who live in our service area of the unincorporated county or the cities that contract with us, which include San Diego, Carlsbad, Encinitas, Del Mar and Santee.

Rabies vaccinations for dogs (four months or older) and cats (three months or older) will be available for \$6. Dog licenses, required by law, may be purchased for one, two, or three years.

With proof of a dog license, Animal Services will microchip dogs for a one-time fee of \$20, which includes the registration. There is no license requirement for cats, and the department welcomes both rabbits and cats for microchipping as well.

A microchip is a small transponder, the size of a grain of rice, which is injected under the skin and remains there for the life of the pet. Animal Services scans all stray animals it receives for a microchip. Then, staff is able to locate the owner's information through the number on the microchip.

Owners who have failed to license their dog, or have allowed their dog's annual license to expire, will be offered amnesty from any late fees during the event.

For the protection of owners and their pets, dogs must be on a leash and cats and rabbits in a carrier while at the clinic. For more information, contact County Animal Services at (619) 767-2675 or visit [www.sddac.com](http://www.sddac.com).
